

## New EDS Distinguished Lecturers Announced

Our Society is pleased to welcome five new Distinguished Lecturers (DLs) this year to help bring talks on leading edge topics to our Chapters. The additions to our DL roster reflect technical, geographic and gender diversity. Please see below for a listing of the new DLs. Chapter Chairs are encouraged to reach out to the DLs directly to extend invitations for lectures at Chapter meetings. Funding is available from EDS.

Please visit the [EDS website](#) for more information on the DL program.

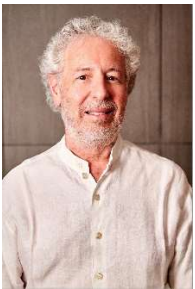

**Alba Avila**, Universidad de los Andes

**Marko Radosavljevic**, Intel Corporation

**Victor Grimblatt**, Synopsys

**Radu Sporea**, University of Surrey
